With economy, \$125 will cover the necessary expenses of a student for the year, exclusive of books and clothes. When a student is admitted into the college, he is charged five dollars as an entrance fee. The college hills for each session must be paid within four weeks after its commencement.

Students whose parents or guardians do not live in rown, lodge in the college edifice, unless the rooms are full; in which case they are permitted to lodge in private houses in the town. Such students, however, as well as those in the college building, are subject to the daily visitation of the Professors and Tutors.

The government of the institution is intended to be parental. The anxious endeavours of the Faculty will be directed to excite in the students a high emulation for intellectual and moral excellence, by exacting rigid accuracy in recitations, by enforcing habits of industry and close attention to study, and by exercising a vigilant care to prevent every practice that may be vicious in its nature or demoralizing in its tendency.

The situation of the college is healthy, and the surrounding country fertile and pleasant. A new building is soon to be erected, capable of accommodating a hundred students.
